17:00 CET (Mainland Europe)

Dial-in and webcast link details: Please email dennis@tsanet.org

The TSANet Global Board http://www.tsanet.org/about/board_members.php will meet on 9/10/11 March. This very important meeting will be hosted by board member Jill Scola at EMC offices in Boston. This, the first face to face meeting since completion of the globalization process, will be the first opportunity for the TSANet global board to make important and final decisions on the previously discussed current TSANet programs and service offerings and how we can best model our programs and pricing to align with industry changes thereby adding maximum value to our members in the future.

Join the board and staff for on update on the board meeting discussions and use this opportunity to give your comments and feedback on the TSANet business strategy proposals and decisions.
