

Creating Partner Journeys

© FT Works 2025

About Francoise Tourniaire

- Author of *The Art of Support*
- Founded FT Works in 1998
- Helps technology companies improve their support and customer success operations

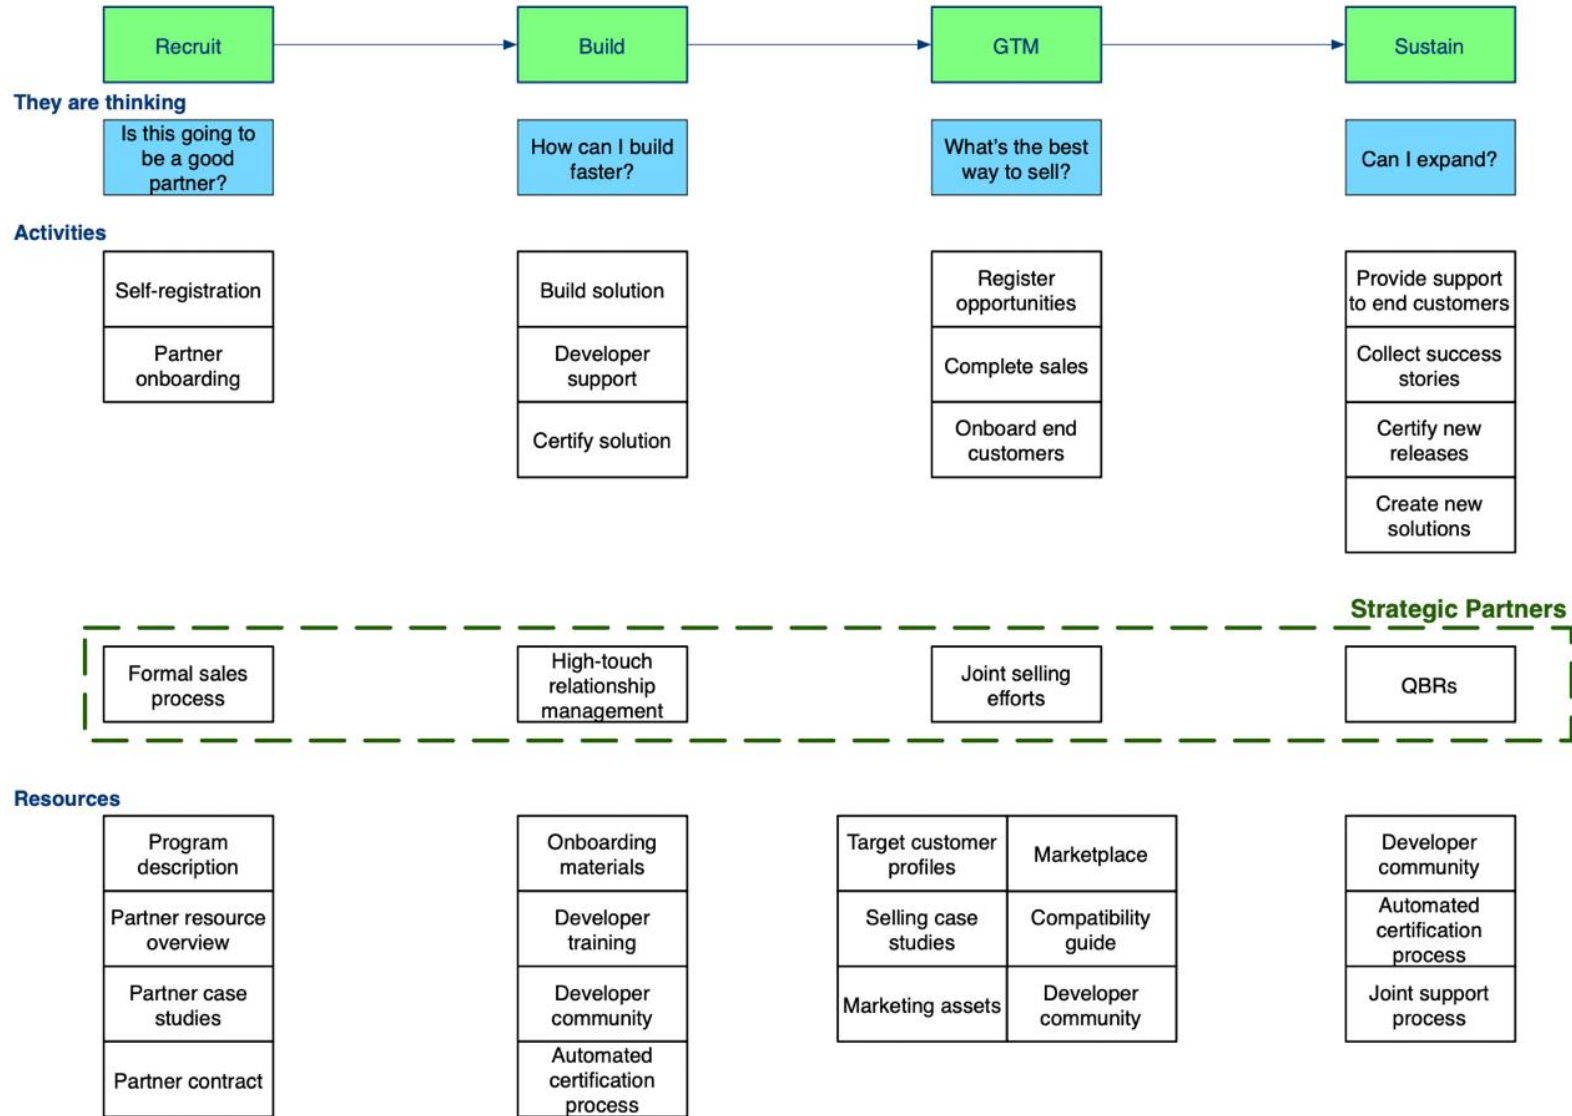

Why

- Improve partners' experience
- Amplify the impact of the Alliance Partner team
- Align all the organizations that work with partners

what

Alliance Partner Journey

who

All organizations that work with partners

- Alliance Partner management
- Sales
- Support
- Legal
- Others as needed

HOW

1. Education & goal setting
2. Define personas
3. Define journey phases
4. Identify critical activities

1. Education & Goal Setting

Align on

- Deliverables
 - Project rationale
 - Milestones and timeline
 - Roles and responsibilities
- Show realistic examples
 - Reuse existing work if possible

Don't skip this phase!

2. Define Personas

- Name
 - Face
 - Title
 - Responsibilities
 - Goals
- Provide drafts to improve/destroy
 - Focus on a few essential players
 - Consider the *entire* lifecycle

Sample Set of Personas

Bob
Business Mgr.

Mia
Marketing Mgr.

Dee
Development Mgr.

Sunil
Support Mgr.

3. Define Journey Phases

- Major steps in the journey
- Identical for all personas (may not be active for all)
- Entrance and exit criteria
- Meaningful for partners
- Cover the entire lifecycle
- Prefer short names
- Can refine later

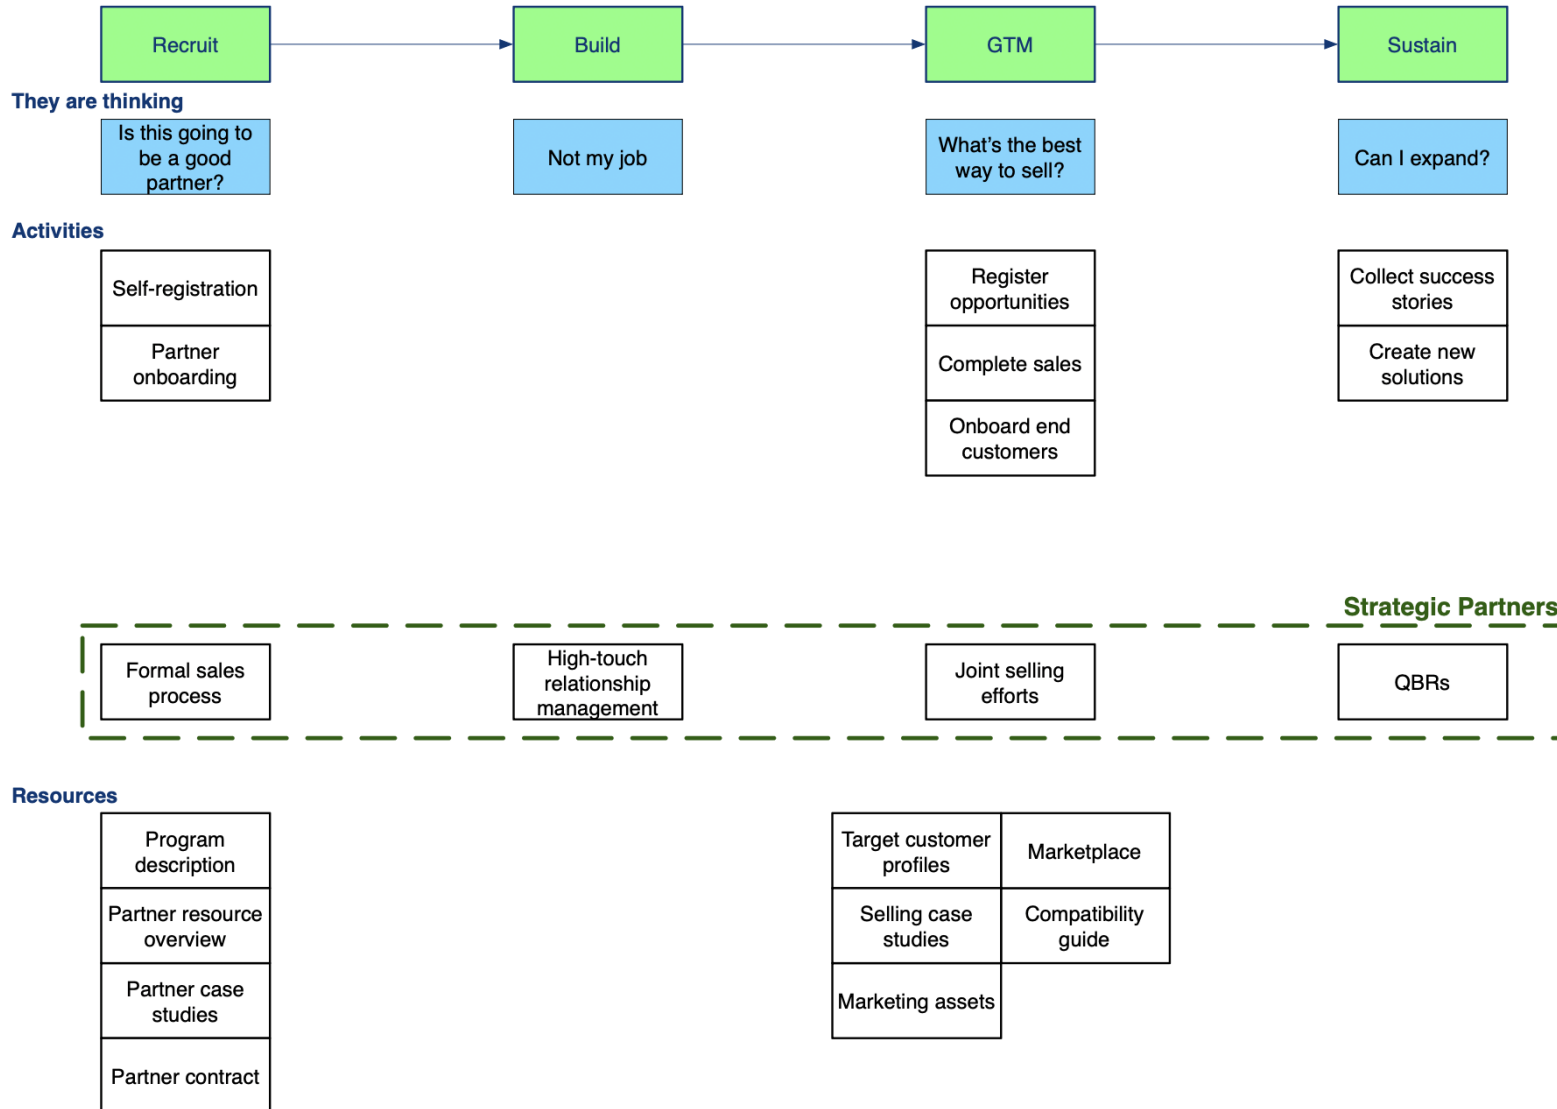

4. Create the Journeys

- One per persona
- Identify activities and resources
- Create an ideal journey
- Bonus: identify pain points
- Start with an important persona with a rich journey
- Propose drafts
- Solidify phases after the first journey

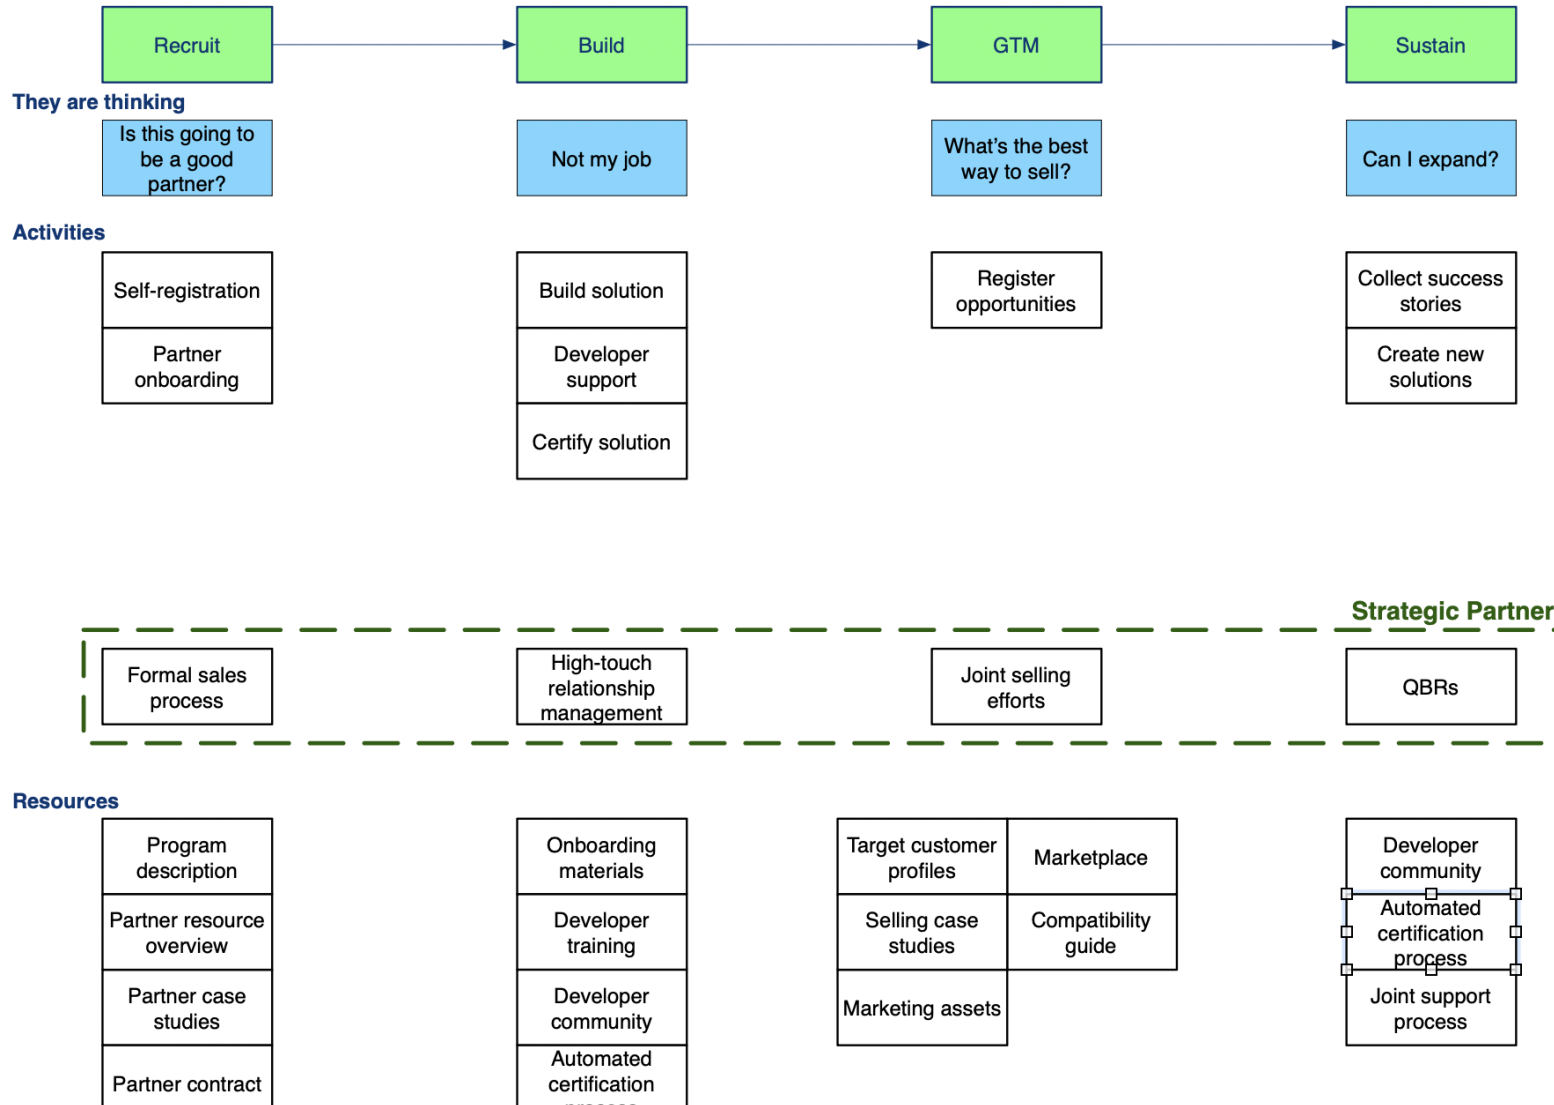

Sample Journey

Bob Business Manager

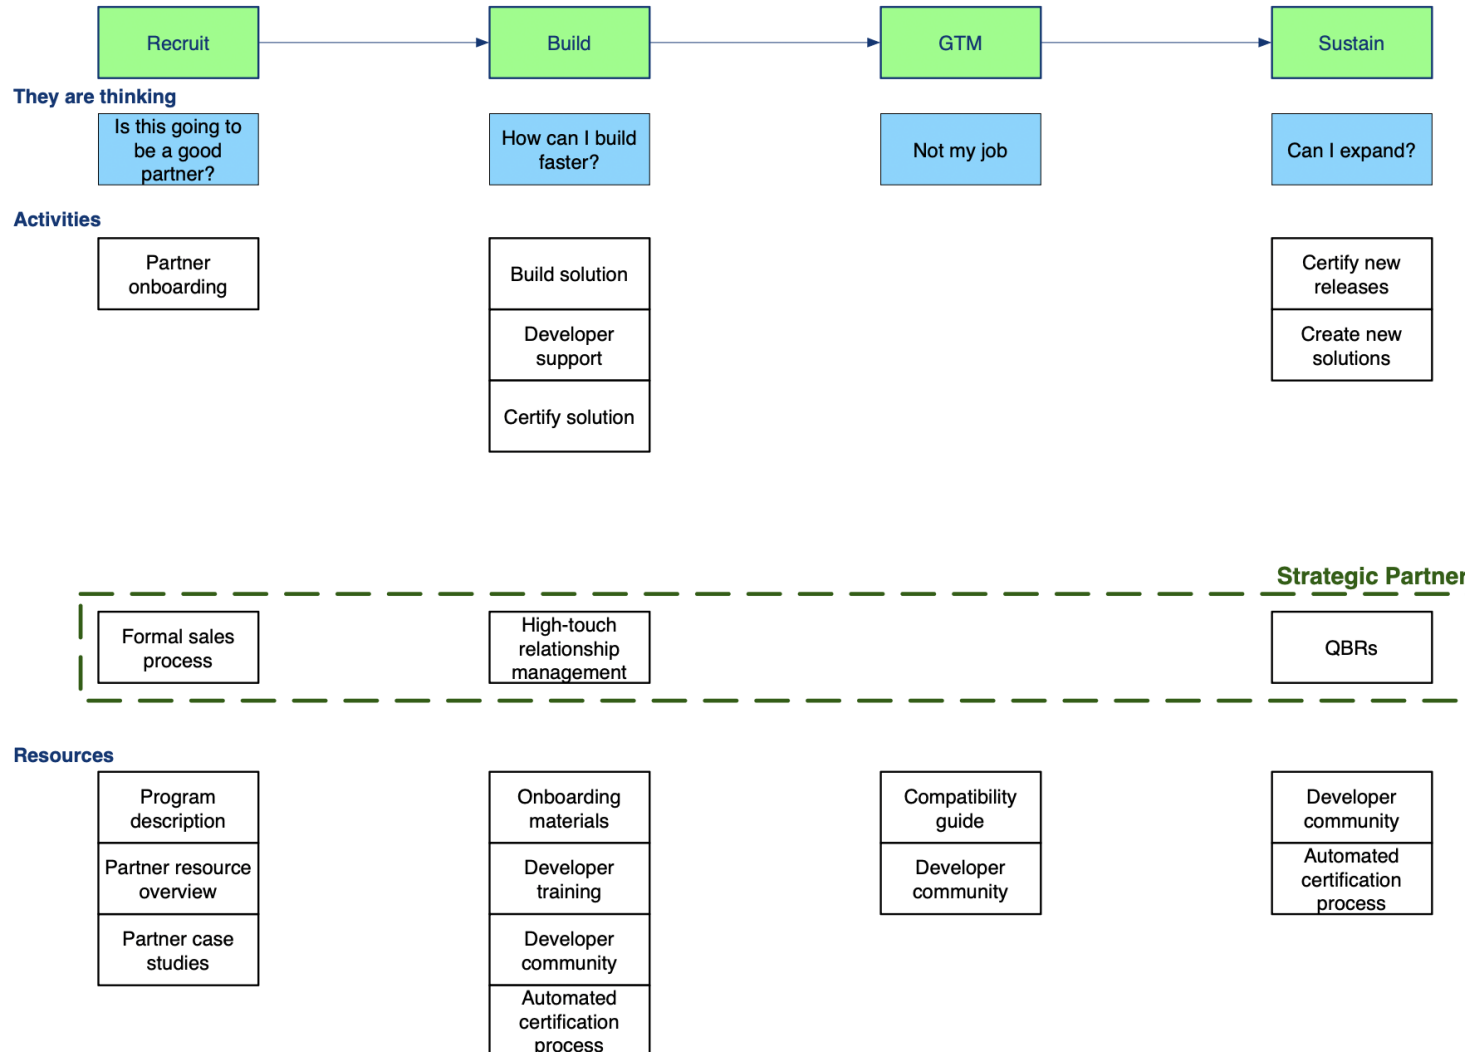

Sample Journey

Mia Marketing

Sample Journey

Dee Development Manager

- Focus on individual roles, not levels of partners
- Iterate
- It gets easier with practice
- Review annually
